

Stanislas Sassolas

stansasso@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Lyon, France

EDUCATION

2022 - 2027	CPE Lyon <i>Master of Engineering — major in Software Design & Big Data</i> - Data Science, Machine Learning, applied statistics, databases and software architecture	Lyon, France
2019 - 2022	Institution des Chartreux <i>Preparatory classes MPSI / PSI (CPE Lyon partner program)</i> Intensive program preparing for top French engineering schools (Grandes Écoles)	Lyon, France

PROFESSIONAL EXPERIENCE

Mar - Sep 2026	Meelo <i>AI Software Engineer</i> - Developed an AI decision-support agent to automate the analysis of 150K+ business cases - Benchmarked and integrated 8 LLMs on accuracy, latency and inference cost; selected the model for large-scale deployment on Vertex AI - Built an automated fraud-risk scoring system for tax documents: financial indicators and a 1–5 risk score to prioritize suspicious cases - Designed LLM pipelines for document analysis and information extraction, integrated into the platform with Product Managers	Lille, France
Jan - Feb 2026	Blanchisserie de Paris <i>Production Operator — industrial laundry</i> - Operated industrial drying and ironing machines; physically demanding, high-paced factory work - Worked within a multicultural team of Indian colleagues; learned basic Tamil	Paris, France
Jun - Sep 2024	Odyssée Venture <i>Venture Capital Analyst</i> - Analyzed software and AI deal flow: technologies, barriers to entry (IP), competition and USP	Paris, France
Jun - Sep 2022	Monabee <i>Design Office Technician</i> - Technical studies and sizing of photovoltaic installations based on client needs - Deployed and programmed smart cards	Lyon, France

PROJECTS — code and results at github.com/stanislas-sassolas

- **Financial RAG (in progress)** (*Python, Claude API*): Spanish Q&A over Alicorp's quarterly reports, every figure cited with its page; right page in the top 6 for 91% of questions (78% with BM25)
- **RL trading agent** (*Stable-Baselines3, PyTorch*): PPO agents on BTC, ETH and gold with fees and leak-free features; beat buy & hold in validation but not on 2025: selection-bias analysis
- **MeteoVelo** (*PySpark, Spark MLlib*): Lyon bike-traffic prediction (263K hourly counts, 376 sensors): $R^2 = 0.95$ on an unseen week
- **COVID-19 sentiment** (*TensorFlow/Keras*): 5-class classification of 45K tweets, 4 networks vs. a TF-IDF baseline: 78% accuracy (+24 pts)

SKILLS & INTERESTS

Languages	Python, Java, C, Rust, JavaScript, Node.js
Data / ML	Machine Learning, Deep Learning (TensorFlow, PyTorch), LLMs & RAG, Vertex AI, Reinforcement Learning, Spark, Hadoop, SQL
Spoken	French (native), English C1 (Cambridge), Spanish B1 (in progress), Chinese HSK2
Sports	Trail running and mountaineering (GR20 in 8 days, San Mateo 5200 m); competition-level swimming (Monte-Cristo challenge)
Other	International: Peru, Canada, England, Ireland; volunteer at Restos du Cœur
